ENG 111 – Principles of Effective Writing I

4 hours, 3 credits

An English composition course designed to provide students with intensive writing and basic skills practice. Emphasis will be placed on organization, logic, coherence, and focus, as well as on grammatical correctness, sentence structure, and paragraph development.

BIO 166 – Principles of Biology I (lecture & lab)

6 hours, 4 credits

Introduction to the principles of biology governing the unity and diversity of living organisms, with special emphasis on molecular, subcellular and cellular levels of organization in plants and animals, and on genetics and evolution. Laboratory exercises consist of experimental procedures illustrating basic concepts of biology.

POL 166 – The American Political System

3 hours, 3 credits

The theory and practice, and the form and substance, of American government and politics.

LEH 100 – Freshman Seminar

3 hour, 3 credits

Assists entering freshman in understanding and appreciating the nature of the educational process upon which the student is embarking. Aims to develop students' awareness of the unfolding dimensions of their education and its relationships to Lehman's General Education curriculum. Students will also begin developing the skills of using information and media sources in academic studies and for intellectual purposes.

MATH – Placement required

Please see a math advisor for your appropriate placement (you need to have taken the math Compass test to be advised)

ENG 111 – Principles of Effective Writing I

4 hours, 3 credits

An English composition course designed to provide students with intensive writing and basic skills practice. Emphasis will be placed on organization, logic, coherence, and focus, as well as on grammatical correctness, sentence structure, and paragraph development.

HUM 150 – The City and the Humanities I

1 hour, 1 credit

A series of lectures, films, and live performances of music, theatre, and dance, designed to introduce students to the role of the arts in an urban setting. Lectures present a chronological study of the city and the humanities from classical Athens to New York City today.

PSY 166 – General Psychology

3 hours, 3 credits

Introduction to the methods of modern psychology with a consideration of significant problems within the areas of learning, motivation, emotion, individual differences, perception, developmental processes, personality, and social behavior.

ANT 212 – Ancient Peoples and Cultures

3 hours, 3 credits

The use of archaeological and early documentary data to study the origins and development of culture, agriculture and complex societies.

AAS 232 – African Civilizations

3 hours, 3 credits

A comparative study of African cultures and societies, focusing on the arts, religious and philosophical concepts, social organization, systems of government, and economic and technological developments.

LEH 100 – Freshman Seminar

3 hour, 3 credits

Assists entering freshman in understanding and appreciating the nature of the educational process upon which the student is embarking. Aims to develop students' awareness of the unfolding dimensions of their education and its relationships to Lehman's General Education curriculum. Students will also begin developing the skills of using information and media sources in academic studies and for intellectual purposes.
